

CpE 491 Homework #1
Due in class on Feb. 10th

Use the picture of yourself taken in class. Embed a text message in this image using Ezstego software downloadable from www.stego.com . Submit the following:

- (a) Text message that you embedded along with its size (in kb)
- (b) Image that contains the embedded hidden message
- (c) What is the maximum size of a message that can be embedded using Ezstego?
- (d) An explanation in your OWN words (about 2 pages, 11 pt. Font) how Ezstego algorithm works, its advantages and disadvantages. Do NOT copy and paste material directly from the software's website. This is a serious legal and academic offense.
